## INTERNSHIP EXPERIENCE

### Prophecy Technologies Chennai, 600013 [SOFTWARE DEVELOPER INTERN]

Feb 2025 - present

- Worked on development of the company's ERP platform as a backend developer, I encountered challenges related to API integration, including connectivity issues and unintended frontend design alterations upon integration. I proactively identified and resolved these issues.

### VDart Technologies Pvt Ltd Trichy, 620020 [AWS INTERN]

July 2024 – Dec 2024

- Successfully deployed an application on AWS using an S3 bucket, overcoming challenges with code deployment due to certain folders not being properly fetched. Independently diagnosed and resolved the issues. Through this experience, I gained a deeper understanding of various AWS services and their appropriate use cases.

### Vebox Software Solution Thanjavur, 613005 [WEB DEVELOPMENT INTERNSHIP]

July 2023 – Aug 2023

- Proficient in **HTML, CSS, JavaScript, and React.js**, with expertise in UI design principles and responsive web development. Designed and implemented **mini-projects and static websites**, integrating front-end technologies while following industry best practices.
